

Department of Chemistry

The **Department of Chemistry at the University of Zurich** is looking for scientists to fill the following positions as soon as possible:

- **PhD Student position: Chemist/Nanoscience**
- **Postdoc position: Polymer Chemist/Nanoscience**

The research in our group is dealing with several aspects of surface science.

It includes:

- Nanomaterials
- Polymer Chemistry
- Coating technologies

Our team is highly interdisciplinary and consists of Master students, PhD students and Postdocs.

We are searching excellent, highly motivated, enthusiastic and independent scientists with passion for science for our team. Very good studies results are required. For postdoc positions: at least 1 year in-depth research experience in one of the research fields mentioned above is mandatory.

We offer outstanding working conditions, a high quality of life in Zurich, an adequate salary and conditions of employment of the University of Zurich.

Please send your complete application documents referring to "150" by e-mail only to:

fabienne.stutz@chem.uzh.ch
